EXPERIENCE

UX Designer

Amazon Web Services / Seattle, WA / August 2014 – present

Lead the design direction for the following AWS services: AWS Config, AWS CloudTrail and AWS Service Catalog. Work collaboratively with engineers, product managers, executives, and other designers, leading design throughout the strategy, design, and development life-cycle.

UX Designer/Interaction Designer

Blue Nile / Seattle, WA / March 2014 – August 2014

Bring user-centered design (UCD) process methods to digital applications from concept to launch. Develop innovative, elegant, usable, and data driven interaction designs for desktop and responsive.

UX Designer/Interaction Designer

Windermere Solutions / Seattle, WA / October 2013 – March 2014

Participate in the software development life-cycle including: functional definition, interaction models, user interface design, page layouts, content style guides and design patterns, wireframes, prototypes, site maps and navigation schemas.

UX Designer

EagleView Technologies / Bothell, WA / May 2012 – October 2013dr

My duties at EagleView Tech focused primarily on interaction and prototyping for the company's marketing and business development teams, with assignments such as mobile and web interface design and high-fidelity mockups and prototypes for both web and mobile. I worked on iterative improvements as well as new features.

Web and User Interface Developer

Cancer Research and Biostatistics / Seattle, WA / December 2004 – April 2012

My initial duties at CRAB focused primarily on web development and design for web forms and online applications. My role eventually evolved into one more focused on the user necessities. For example designing more intuitive and user-friendly applications.

EDUCATION

MS, Human Centered Design & Engineering (with a focus in user-centered design)

University of Washington / Seattle, WA / 3.72 GPA

My HCDE courses helped strengthen my understanding for the design and evaluation of user experiences, covering such topics as user-centered design, usability testing, and theory. I attended full-time, evening classes while simultaneously maintaining a full-time professional career.

BS, Informatics. Concentration in Human Computer Interaction.

University of Washington / Seattle, WA / 3.70 GPA

The completion of my undergraduate degree sharpened my understanding of how to design, build, manage and secure systems to meet the needs of people, organizations, and society.

Seattle Central Community College

Associate of Applied Science (A.A.S) degree in Information Technology
Concentration in Programming.

Certificates

UW Extension Certificate
Web Technology Solutions

Seattle Central Community College
Web Design Certificate
