Portfolio <http://www.intuitivo.us>

work.

UX Designer/Interaction Designer

Windermere Solutions / Seattle, WA / October 2013 – present

Participate in the software development life-cycle including: functional definition, user flows, interaction models, user interface design, graphic design, page layouts, color palettes, content style guides and design patterns, wireframes, prototypes, polished visual design, site maps and navigation schemas.

UX Designer

EagleView Technologies / Bothell, WA / May 2012 – October 2013

My duties at EagleView Tech focused primarily on interaction and prototyping for the company's marketing and business development teams, with assignments such as mobile and web interface design and high-fidelity mockups and prototypes for both web and mobile. I worked on iterative improvements as well as new features.

Web and User Interface Developer

Cancer Research and Biostatistics / Seattle, WA / December 2004 – April 2012

My initial duties at CRAB focused primarily on web development and design for web forms and online applications. My role eventually evolved into one more focused on the user necessities. For example designing more intuitive and user-friendly applications.

UX Design/Research Intern

Customer Experience Labs / Seattle, WA / June 2011 – August 2012

As a UX Researcher Intern at CXL, I had the opportunity to conduct usability tests for several retail websites. My duties focused on taking notes during sessions, recruit participants and assist in data analysis obtained in the usability tests.

education.

MS, Human Centered Design & Engineering (with a focus in user-centered design)

University of Washington / Seattle, WA / September 2010 – June 2012 / 3.72 GPA

My HCDE courses helped strengthen my understanding for the design and evaluation of user experiences, covering such topics as user-centered design, usability testing, and theory. I attended full-time, evening classes while simultaneously maintaining a full-time professional career.

BS, Informatics. Concentration in Human Computer Interaction.

University of Washington / Seattle, WA / 3.70 GPA

The completion of my undergraduate degree sharpened my understanding of how to design, build, manage and secure systems to meet the needs of people, organizations, and society.

certificates.

UW Extension Certificate

VB.NET 2005 Programming Certificate / 2007

UW Extension Certificate

Oracle Applications Development / 2006

UW Extension Certificate
